TRACKS AREN'T TO SCALE

Track length is frequently helpful to I.D. animals, and the ruler can be used to measure tracks in the field. Appearance of tracks will vary depending on the surface (soil, snow, sand, etc.) and the movement of the animal.

Canine

vs.

Feline

Coyote
2 1/4" - 2 1/2"

There are 3 lobes, but the center lobe is shorter than the other 2

Domestic Dog
1 1/2" - 4 1/2"

Gray Fox

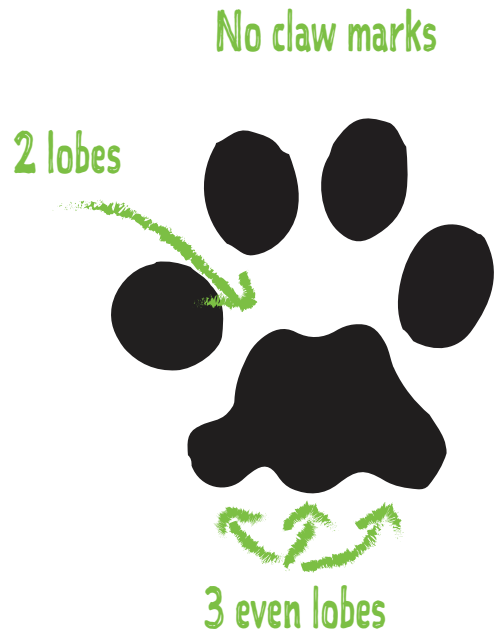

Usually have fur print around paw

Gray fox tracks usually don't show claw marks

H - 2"

Red Fox

Bobcat
2"

Domestic Cat
1 1/8"
