BENTHIC MACROINVERTEBRATES

**Key**

- **High Quality**
  - Pollution intolerant

- **Middle Quality**
  - Somewhat tolerant

- **Low Quality**
  - Pollution tolerant

- **Not an exhaustive key**
- **(L)** denotes larval stage.
- All lengths are in millimeters unless otherwise noted.

**Species**

- **Caddisfly (L)**: Length: 2-40
- **Mayfly (L)**: Length: 3-30
- **Dobsonfly (L)**: Length: 25-90
- **Stonfly (L)**: Length: 5-60
- **Riffle Beetle**: Length: 1-8
- **Water penny beetle**: Length: 4-6
- **Damsel fly (L)**: Length: 10-50
- **Drone fly (L)**: Length: 10-60
- **Whirligig beetle**: Length: 3-15
- **Clams/Mussels**: Length: 2-250
- **Scud**: Length: 5-20
- **Crawdad**: Length: 1.8"
- **Dragonfly (L)**: Length: 10-60
- **Aquatic Worm**: Length: 5-700
- **Midge Fly (L)**: Length: 2-20
- **Left handed snail**
- **Flatworm**: Length: 1-30
- **Leech**: Length: 5-400
- **Mosquito (L)**: Length: 4-12

- **Not an exhaustive key**
- **(L)** denotes larval stage.
- All lengths are in millimeters unless otherwise noted.
